PROFILE

Web designer and front-end developer with 3+ year experience of building pixel perfect websites. Flexible in fast-faced, high pressure working environment; delivered efficient, high-quality works and ensured compliance with requirements and best practices. Focused on helping agile teams with UI development for large scale websites or client-side web apps.

WORK EXPERIENCE

ISHOPGO
WEB DESIGNER, FRONT-END DEVELOPER | JUN 2017 - OCT 2018

- Lead designer on Website Design. Comprehensively redesigned and maintained company websites and admin dashboards to improve user experiences. Transitioned imported CSS to preprocessed SASS.
- Collaborated with project managers, designers and customers to develop websites, landing pages. Validated sites by testing JS, CSS and HTML5 to ensure cross-platform compatibility.

EZ4HOME
CO-FOUNDER | FRONT-END DEVELOPER | OCT 2014 - APR 2017

- Connected with venture capitals for funding. Represented for the team to participate in multiple startup contests in order to call for investment.
- Developed designs & templates with a focus on UX, usability and marketing strategy for website, interactive demos, PowerPoint presentations and email marketing campaigns.
- Designed mobile application UI prototype for project, assisted other designers, architects and marketing team with various aspects of platform needed.

HENRY9
